

Project Status Report: CPST-0 01

Report Date: 11/8/21

Team Members: Bryson Price, Lorenzo Eusebi-Diehr, Dillon Muirbrook

Project Title: SF Collaboration

1) Summary of technical/non-technical challenges encountered

- Conflicting schedules continue to be a slight headache among the group; finding a common time has proven difficult

2) Team approaches & resolutions to overcome challenges

- We've set aside a specific time for this coming week to work on our goals

3) Status of challenge resolutions & potential project impact

- Because not too much is on the line thus far, we're still looking good in terms of project completion

4) Project status & summary

- With the completion of the assignment we'll work on later this week, the project and timelines appear to be well in hand

Please enter # of hours spent on project this last week for each team member in the order listed above
