

Project Status Report: CPST-0 1

Report Date: 3/4/2024

Team Members: Mckenzie Loo, Keeton Knight, Andrew Heathcote, Antonio Ruiz

Project Title: Spanish Fork Crash Database

1) Summary of technical/non-technical challenges encountered

- Began looking at the final report.

2) Team approaches & resolutions to overcome challenges

- We will meet this week to start splitting up the report sections and setting a timeline of when it will be completed.

3) Status of challenge resolutions & potential project impact

- No impact to project yet, we hope that this will help put us ahead on completing capstone.

4) Project status & summary

- Working on setting up and formatting the dashboard during the month of March.

Please enter # of hours spent on project this last week for each team member in the order listed above
