CAPSTONE

Project Status Report: CPST-0 11

Report Date: 04/1/2024

Team Members: Spencer Moon, Samuel Cuessy, Blake Hull, and Beau Switzer

Project Title: Determining Pavement Delamination via Thermography

1) Summary of technical/non-technical challenges encountered

- We are concluding our project and we have overcome our technical challenges. There was nothing of the sort to report for this week.

2) Team approaches & resolutions to overcome challenges

- We are resolved to finish our report, poster, and other deliverables to submit to our sponsor.

3) Status of challenge resolutions & potential project impact

- Finishing and submitting our work will conclude our project and provide a new base of knowledge from which further research and progress can be done.

4) Project status & summary

- We heard from Dr. Guthrie, who said that our results were successful. We are pleased with our work and we will submit all our deliverables.

Please enter # of hours spent on project this last week for each team member in the order listed above
